A person may assist or call turkeys for another legal hunter. The assistant/caller does not have to possess a hunting license or turkey permit, BUT shall not carry any type of hunting equipment. Only hunters with a valid license and permit who have not taken the season bag limit can carry a shotgun, archery or crossbow equipment when turkey hunting.

Turkey hunters may not use firearms during archery or crossbow-only seasons.

On some WMAs, special equipment restrictions apply, as noted in the Public Land Hunting section.

Equipment that does not meet these requirements is prohibited for use when turkey hunting.

HARVEST RECORDING & TAGGING REQUIREMENTS

The process and requirements for recording, checking and tagging harvested turkeys is the same as for deer. Please refer to the General Information/Telecheck section for that information and an explanation of how to fill in the hunter harvest log, and carcass tag when necessary.

POSSESSION/RELEASE OF LIVE TURKEYS

Because of potential disease problems and genetic pollution, it is illegal to possess live wild turkeys. For the same reasons, domestic or pen-raised turkeys should not be released into the wild. Due to the potential for spread of disease, it is recommended that turkeys not be artificially fed. Providing standing corn, wheat or clover patches is a much better alternative. See the General Information/Telecheck section of this guide for regulations on feeding wildlife from March 1 - [May 31](#).
